

**Meet Marlon Elliott  
Student, Long Island  
Business Institute**

After being laid off and relocating to New York, Marlon knew going back to school was his only hope of getting a stable job. He enrolled in the Long Island

Business Institute, knowing a degree from there would help him fulfill his goals. There was one problem: He could not secure enough funds in loans to cover his entire tuition.

Funds from TAP - the state's Tuition Assistance Program - helped him close the gap. "I would not be in school if it weren't for TAP, and now I will graduate with a degree that will give me the power to choose what I want to do with my life."

Because of TAP, Marlon and thousands of other hard-working New Yorker's, are able to afford college and reach their full potential.
